

Sveriges nationella handlingsplan, NHP, för hållbar användning av växtskyddsmedel för perioden 2019-2022.

Agenda 20191024

1. Introduktion och bakgrund
2. Vad händer under perioden 2019-2022?

Introduktion och bakgrund

- Direktiv 2009/128/EG om hållbar användning av bekämpningsmedel, SUD
<https://eur-lex.europa.eu/legal-content/SV/TXT/?uri=CELEX%3A32009L0128>
- Förordning (EG) nr 1107/2009 om utsläppande av växtskyddsmedel på marknaden
<https://eur-lex.europa.eu/legal-content/sv/TXT/?uri=CELEX%3A32009R1107>
- Sustainable use of pesticides
https://ec.europa.eu/food/plant/pesticides/sustainable_use_pesticides_en

Övriga kopplingar

- Växtskyddsrådet:
Växtskyddsrådets arbete ska stödja prövningen av produktgodkännande enligt Växtskyddsmedelsförordning 1107/2009 och underlätta arbetet att uppnå kraven i hållbarhetsdirektivet 2009/128/EG
- Livsmedelsstrategin:
Ett hållbart växtskyddsarbete är en förutsättning för att svensk växtodling ska hävda sig i den internationella konkurrensen.

Sustainable use of pesticides

[Directive 2009/128/EC](#) aims to achieve a sustainable use of pesticides in the EU by reducing the risks and impacts of pesticide use on human health and the environment and promoting the use of Integrated Pest Management (IPM) and of alternative approaches or techniques, such as non-chemical alternatives to pesticides. EU countries have drawn up National Action Plans to implement the range of actions set out in the Directive.

The [main actions](#) relate to training of users, advisors and distributors of pesticides, inspection of pesticide application equipment, the prohibition of aerial spraying, limitation of pesticide use in sensitive areas, and information and awareness raising about pesticide risks.

EU countries must also promote Integrated Pest Management, for which, general principles are laid down in Annex III to the Directive.

The main purpose of this web-portal is to provide:

- key information on the sustainable use of pesticides and
- links to relevant information contained on official websites in the Member States.

[There is a search function to help find the links you are looking for.](#)

Harmonised Risk Indicators

The European Commission has adopted the [Commission Directive 2019/782](#) establishing Harmonised Risk Indicators to estimate trends in the risks from pesticide use as required by Directive 2009/128/EC establishing a framework for Community action to achieve the sustainable use of pesticides.

[Click here for more information on Harmonised Risk Indicators.](#)
